Summary

Full Stack Developer with 3.5 years of experience contributing to diverse products such as Social Media Platform for Delivery partners, Directory for STEM Professionals, Admin Dashboards, LinkedIn BOT, School Examination Platform. Proficient in building scalable and efficient web applications using Spring Boot, Angular, and Node.js. Adept at designing and implementing robust RESTful APIs, creating responsive user interfaces, and optimizing application performance. Experienced in designing clean backend architectures, integrating third-party services, and delivering seamless end-to-end solutions. Quick learner with strong problem-solving abilities and a passion for adopting modern technologies to build efficient, user-focused solutions.

Skills

Backend : Springboot, Node.js, Express.js

Frontend : Angular, HTML, CSS, JavaScript

Database : MySQL, MongoDB, PostgreSQL, Redis

Tools & Workflow : Git, Github/Gitlab, Docker, Postman, Trello

Cloud : AWS (EC2, S3, RDS)

Testing : JUnit, Mockito, Playwright, Cypress

Deployment : Netlify, Vercel, Docker, Github Actions

Auth & Security : JWT, OAuth2, Spring Security

Education

B.Sc.IT (Bachelor of Science in Information Technology) 2017 - 2020

Veer Narmad South Gujarat University, Surat

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Software Engineering, Web Development, Object-Oriented Programming, Computer Networks, Operating Systems

M.Sc.IT (Master of Science in Information Technology) 2022 - 2024

Veer Narmad South Gujarat University, Surat

Relevant Coursework: Advanced Data Structures, Data Warehousing, Machine Learning, Software Testing and Quality Assurance, Cloud Computing

Experience

Full Stack Developer | Codelamda Technologies Pvt. Ltd.

Jan 2025 - Present

- Developed and maintained a social media platform for delivery partners, enabling seamless communication and collaboration among users.
- Designed and implemented a directory for STEM professionals, facilitating networking and knowledge sharing within the community.
- Created admin dashboards to monitor and manage platform activities, ensuring efficient operations and user engagement.
- Optimized application performance by implementing efficient database queries and caching strategies.
- Built a LinkedIn BOT to automate interactions and enhance user experience on the platform.

Full Stack Developer | Savyasachi Infotech

June 2021 - Jan 2025

- Contributed to the development of a school examination platform, streamlining the assessment process for educators and students.
- Collaborated with cross-functional teams to design and implement scalable web applications using Spring Boot, Angular, and Node.js.
- Developed RESTful APIs to support frontend functionalities and integrated third-party services for enhanced application features.
- Participated in code reviews, ensuring adherence to best practices and maintaining high code quality.
- Worked in an Agile environment, contributing to sprint planning, daily stand-ups, and retrospectives to deliver business-driven solutions.

Projects

Tapri (Social Media Platform for Delivery Partners)

Developed a social media platform to facilitate communication and collaboration among delivery partners, enhancing their engagement and support within the community.

Assemble Teams (Directory for STEM Professionals)

Created a directory to connect STEM professionals, fostering networking and knowledge sharing within the industry.

Merky FC (Admin Dashboards)

Designed and implemented admin dashboards to monitor and manage platform activities, ensuring efficient operations and user engagement for a football club based in UK.

LinkedIn BOT

Built a LinkedIn BOT to automate interactions and enhance user experience on the platform.

School Examination Platform

Contributed to the development of a school examination platform, streamlining the assessment process for educators and students.

Touch Ticket

Developed a cross-platform mobile application using Flutter to enable users to discover and book tickets for local events seamlessly.
